

RE: Request for Qualifications

Programs: HOME/CDBG Housing Rehabilitation
DOE/LIHEAP Weatherization
Utility Energy Assistance Weatherization

Center for Community Action (CCA) is non-profit human services agency that provides weatherization services in Bedford, Fulton, Cambria, and Blair counties. CCA also administers HOME funds for owner-occupied housing rehab contracts in Bedford County. We currently have over \$500,000 in housing rehab contracts and typically provide weatherization to 350 homes per year. CCA would like to expand our list of qualified contractors to work on these projects.

We would like to extend this opportunity to join our team of qualified contractors to assist in our housing projects.

It is the policy of the CCA to promote the opportunity for full participation by minority and women's business enterprises in all housing and community development programs receiving funds from the Pennsylvania Department of Community and Economic Development. Any Minority or Women owned Business Enterprises are encouraged to apply. We also encourage any diversity program business enterprise to apply to become a qualified contractor for our programs.

Please contact our office for an application package,

PHONE: (814) 623-9129 and ask for Diana

EMAIL: ddick@ccaofpa.org

Center for Community Action is an equal opportunity employer and provider.
